Invisiware Threaded Tab

Here's a real time and money-saver. The Invisiware threaded tab screws into a drilled and tapped hole on the inside wall of the end post for mounting an Adjust-A-Jaw or Adjust-A-Body tensioner, Ultra-tec Fixed Jaw, or Push-Lock fitting with threaded eye. **You save the expense of welding tees or tabs onto your end post.** Recommended only when you are using a minimum schedule 80 pipe end post or a square or rectangular steel end post with a minimum .250" wall.
