Do You Feel that Summertime Vibe?

Sun's out, grills are out which means homeowners are enjoying warmer days outside. Whether these outdoor activities are in a backyard or a community space, AS&D has all the right products to help you get your customers outside to enjoy the great weather.

How to Maximize Your Customer's View

Are your customers looking for a railing system that provides a see-through infill option? Well, we have you covered.

The images above show our most popular options.

Left: Our cable infill option displays a modern sleek design.

Right: Our glass infill option provides an unobstructed view and an excellent wind break.

Call us today for a quote.

Patio Cover Wrap Kits

Did you know that AS&D provides 9 color options for our lattice wraps, post wraps, and pergolas?

Visit our [website](#) to view our patio cover systems, then give us a [call](#) if you have any questions or to place an order.

We want to highlight your patio cover project!

Have you recently finished a patio cover project with our products, or will you be starting one soon? We would love to feature you and your company on our social media and in our newsletter.

If you have a beautiful location and design, please contact our **Marketing Coordinator** and we'll come out to the jobsite to photograph and video your project.

Contractor Highlight

Luke from Deck Solutions

Meet Luke, the founder of Deck Solutions, LLC. Luke has been in the construction industry as long as he can remember. He started his own company because he felt that the connection between the homeowner and contractor was missing. His goal was to take the homeowner's vision and turn it into a reality using a painless railing system.

Luke says that he has installed

"Every homeowner is good company. Its a good time."

*We're building friends and relationships. My guys and I are constantly thinking outside the box to convert the homeowner's vision to reality. **The proof is in the pudding.***

every railing system out there and couldn't find a simplified system until he used ours. He likes how easy and consumer-friendly it is. Not only that, he hasn't found any other company that pre-drills their cable posts which saves him a ton of time in the field.

With our railing products, Luke is willing to take on unique projects that exceed homeowner's expectations.
