

## Note From AS&D CEO Mike Hagen

Dear Valued Clients,

The commercial and residential construction markets remain strong and AS&D continues to grow. To accommodate this growth, we have moved into a larger manufacturing facility in Sumner, WA. We have tripled our floor size to allow for **expansion in:**

- Will-call
- Commercial products
- Residential products
- New product lines

At the same time, we have continued to invest in people and resources for our Portland, OR facility.

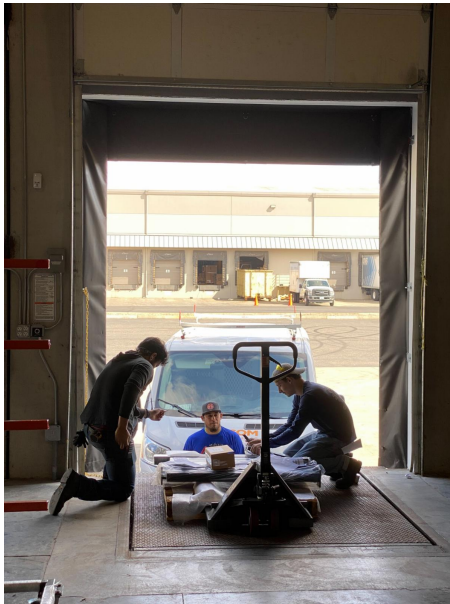

Thank you for your patience over the last six months as we have been moving buildings and battling supply chain issues. I know it hasn't been easy, but the good news is that we've emerged stronger than ever. We have invested in significant additional inventory to service our customers for the remainder of this year and well into 2023, making sure we have the materials you need on hand.

We value your partnership and your business. Please **contact me or anyone on our team** if you have questions. I encourage you to visit us at our new Sumner, WA facility or our Portland, OR facility to see our progress as we aspire to build out a world-class company.

Thank you for your trust in AS&D,  
Mike Hagen, CEO

## New Location: Sumner, WA

### Continuous Improvement

We will continue to invest in system improvements and inventory for railing, balconies, and particularly in the patio cover business to supply this rapidly growing market.

*Our expanded facility means we have the materials you need on hand.*

**New Washington Address: American Structures and Design  
1801 132nd Ave. E, Sumner, WA 98390 Phone: 253-833-4343**

## Project Spotlight: Alexan 100, Seattle, WA

Ideally situated in the heart of uptown Seattle, the newly constructed **Alexan 100** is generously adorned with over 1,000 lin. ft. of AS&D **TR200 Flat Top** aluminum railing with picket infill and 68 aluminum balcony systems across five stories.

With contemporary design options, low-maintenance materials, and long-term durability, AS&D **Aluminum Railing** and **Balcony Systems** meet the unique needs of residents and property owners alike, all while enhancing neighborhoods for years to come.
